NOTE

This presentation may contain certain forward-looking statements regarding Groupe SEB's activity, results and financial situation. These forecasts are based on assumptions which seem reasonable at this stage, but which depend on external factors including trends in commodity prices, exchange rates, the economic environment, demand in the Group's large markets and the impact of new product launches by competitors.

As a result of these uncertainties, Groupe SEB cannot be held liable for potential variance on its current forecasts, which result from unexpected events or unforeseeable developments.

The factors which could considerably influence Groupe SEB's economic and financial result are presented in the Annual Financial Report and Registration Document filed with the *Autorité des Marchés Financiers*, the French Financial Markets Authority. The balance sheet and income statement included in this press release are excerpted from financial statements consolidated as of December 31, 2019 examined by SEB SA's Statutory Auditors and approved by the Group's Board of Directors, dated February 25, 2020.
