Other EMEA: ongoing great performance, fueled by all countries

- Continued solid and widespread dynamic
- SEB strongly outperforming market over 9 months
- Overall reinforced online positions
- Home cleaning, electrical cooking, cookware and fully automatic espresso coffee machines as major growth catalysts
North America: excellent 9-month performance, vs both 2020 and 2019

- 9-month sales of €550m including StoreBound (US) and negative FX effects
  - Up 38% vs 2019

US:
- Q3 performance impacted by:
  - Very high market comps fueled by government consumption incentives in 2020
  - Temporary shutdown of our Vietnamese cookware plant
- Excellent 9-month performance driven by cookware and StoreBound

Ongoing sharp progress in Mexico, YTD and Q3
South America: strong recovery ongoing, with sales back to 2019 levels

- **Brazil:**
  - Stable sales in Q3 in a tough market and following highly dynamic H1
  - Successful price increase implementation to compensate for unfavorable currency impacts and supply chain pressures

- **Colombia:** ongoing excellent momentum. Sales sharply up, YTD and Q3

- Overall in the region: electrical cooking (oil-less fryers) and cookware as key drivers. Fan sales trending positively.
China: Supor outperforming market and optimizing profitability

- **Supor sales up** in a context of temporarily softer SDA / cookware market
- Accelerating distribution transformation and **steadily strengthening online operating margin**, now exceeding the offline profitability
- Market share gains driven by innovation and product offering extension
- Growth fueled by **electrical cooking, beverage preparation and home cleaning**
- **Q3 reported sales +7.3% vs 2019**

Glossary

On a like-for-like basis (LFL) – Organic
The amounts and growth rates at constant exchange rates and consolidation scope in a given year compared with the previous year are calculated:
- using the average exchange rates of the previous year for the period in consideration (year, half-year, quarter);
- on the basis of the scope of consolidation of the previous year.
This calculation is made primarily for sales and Operating Result from Activity.

Adjusted EBITDA
Adjusted EBITDA is equal to Operating Result from Activity minus discretionary and non-discretionary profit-sharing, to which are added operating depreciation and amortization.

Operating Result from Activity (ORfA)
Operating Result from Activity (ORfA) is Groupe SEB’s main performance indicator. It corresponds to sales minus operating costs, i.e. the cost of sales, innovation expenditure (R&D, strategic marketing and design), advertising, operational marketing as well as commercial and administrative costs. ORfA does not include discretionary and non-discretionary profit-sharing or other non-recurrent operating income and expense.

Net debt
This term refers to all recurring and non-recurring financial debt minus cash and cash equivalents, as well as derivative instruments linked to Group financing. It also includes financial debt from application of the IFRS 16 standard “Leases” in addition to short-term investments with no risk of a substantial change in value but with maturities of over three months.

Loyalty program (LP)
These programs, led by the distribution retailers, consist in offering promotional offers on a product category to loyal consumers who have made a series of purchases within a short period of time. These promotional programs allow distributors to boost footfall in their stores and our consumers to access our products at preferential prices.

Free cash flow
Free cash flow corresponds to adjusted EBTIDA, after considering changes in operating working capital, recurring capital expenditures (CAPEX), taxes and financial expenses, and other non-operating items.
