

2021 FULL-YEAR RESULTS

Ecully | February 25, 2022

Listen to the webcast of the meeting [here](#) or at www.groupeseb.com

2021 FULL-YEAR RESULTS

NOTE

This presentation may contain certain forward-looking statements regarding Groupe SEB's activity, results and financial situation. These forecasts are based on assumptions which seem reasonable at this stage, but which depend on external factors including trends in commodity prices, exchange rates, the economic climate, demand in the Group's large markets and the impact of new product launches by competitors.

As a result of these uncertainties, Groupe SEB cannot be held liable for potential variance on its current forecasts, which result from unexpected events or unforeseeable developments.

The factors which could considerably influence Groupe SEB's economic and financial results are presented in the Annual Financial Report and Universal Registration Document filed with the Autorité des Marchés Financiers, the French financial markets authority. The balance sheet and income statement included in this press release are excerpted from financial statements consolidated as of December 31, 2021, examined by SEB SA's Statutory Auditors and approved by the Group's Board of Directors, dated February 24, 2022. Audit procedures on these consolidated financial statements have been performed. The certification report is in the process of being issued.

1. A structurally buoyant Small Domestic Equipment (SDE) market
2. Groupe SEB creates long-term value
3. Concrete example: Supor in China
4. Outstanding 2021 performances
5. Outlook
6. Appendixes

Glossary

On a like-for-like basis (LFL) – Organic

The amounts and growth rates at constant exchange rates and consolidation scope in a given year compared with the previous year are calculated:

- using the average exchange rates of the previous year for the period in consideration (year, half-year, quarter)
- on the basis of the scope of consolidation of the previous year.

This calculation is made primarily for sales and Operating Result from Activity.

Operating Result From Activity (ORFA)

Operating Result From Activity (ORFA) is Groupe SEB's main performance indicator. It corresponds to sales minus operating expenses, i.e. the cost of sales, innovation expenditure (R&D, strategic marketing and design), advertising, operational marketing as well as sales and marketing expenses. ORFA does not include discretionary and non-discretionary profit-sharing or other non-recurring operating income and expense.

Adjusted EBITDA

Adjusted EBITDA is equal to Operating Result from Activity minus discretionary and non-discretionary profit-sharing, to which are added operating depreciation and amortization.

Free cash flow

Free cash flow corresponds to adjusted EBITDA, after accounting for the change in the operating capital requirement, recurring investments (CAPEX), taxes and financial expense, as well as other non-operational items.

Net financial debt

This term refers to all recurring and non-recurring financial debt minus cash and cash equivalents, as well as derivative instruments linked to Group financing. It also includes debt from application of the IFRS 16 standard "Leases" in addition to short-term investments with no risk of a substantial change in value but with maturities of over three months.

Loyalty program (LP)

These programs, run by distribution retailers, consist in offering promotional offers on a product category to loyal consumers who have made a series of purchases within a short period of time. These promotional programs allow distributors to boost footfall in their stores and our consumers to access our products at more attractive prices.
